Timeline

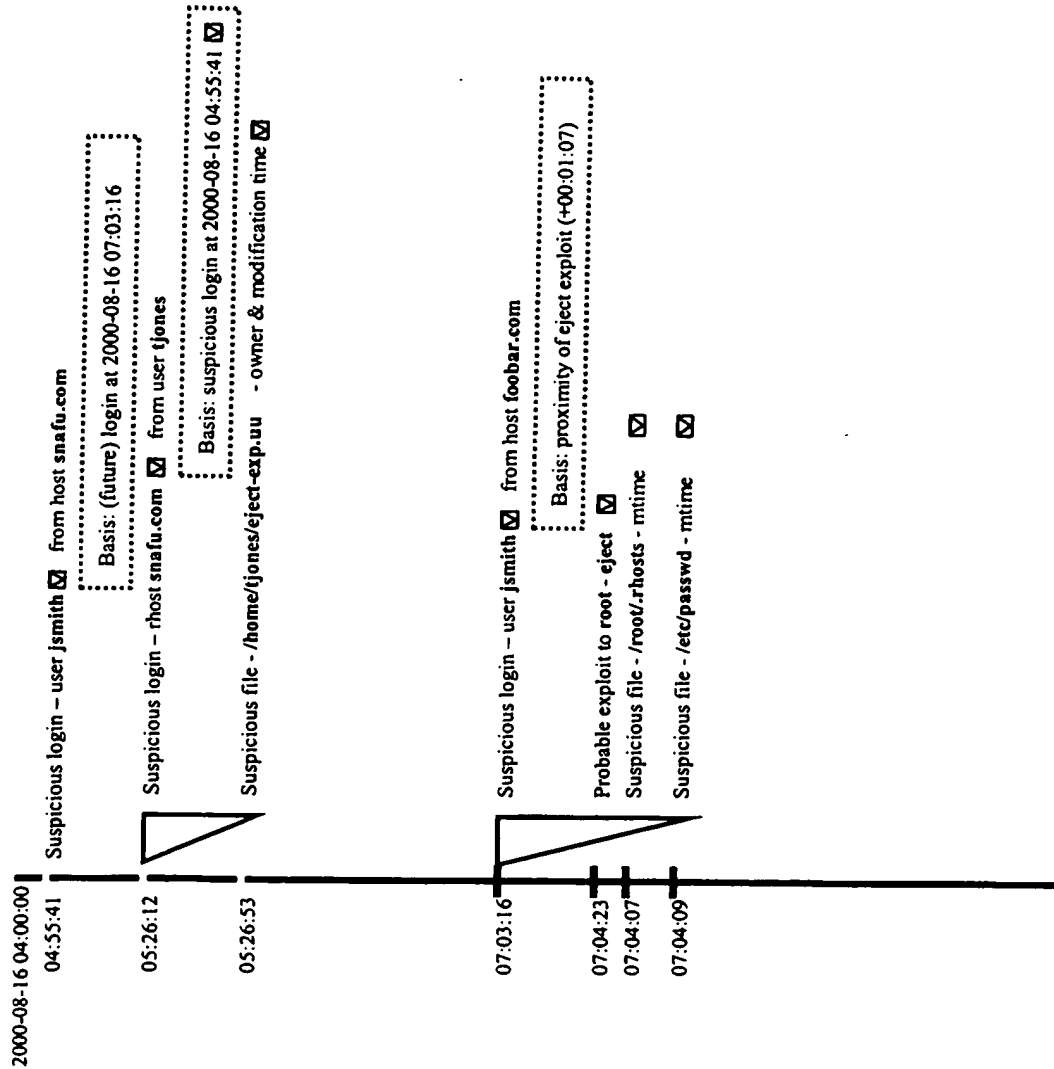

FIG. 5

The diagram illustrates the components of an expert system and the flow of inference. On the left, three components are listed in separate boxes: "Analysis engine", "Rules DB", and "Facts DB". On the right, the flow of inference is shown. It starts with "facts" at the top, which leads to "inferences" via a downward arrow labeled "forward-chaining". From "inferences", the flow continues to "sub-goals", and finally to "goals" at the bottom, indicated by an upward arrow labeled "backward-chaining".
